

## Thyroglobulin (non rec.) biotinylated

### Antigen Specification

**Product Number: 20200**

**Description:**

Human thyroglobulin (TG). Biotinylated natural antigen for research use or manufacturing only.

**Immunological tests/Functionality:**

Functional Streptavidin-based ELISA test (analysis of positive/negative samples).

**Immunological function:**

Binds IgG-type human auto-antibodies. Auto-antibodies to thyroglobulin recognize conformation-dependent epitopes.

**Recommended buffer/storage and handling conditions:**

Recommendations for storage buffer: ionic strength around 150 mM, neutral to slightly alkaline pH and 40% sucrose as cryoprotective agent.

**Origin:**

Native. Isolated from human thyroid glands.

Storage conditions: -70°C or below.

Repeated freeze/thaw cycles should be avoided.

**Biochemical tests:**

Electrophoresis (purity > 80%).

**Apparent molecular weight:**

662 kDa (331 kDa per subunit; for protein component).
